Cayuga Lake Wine Trail – The wineries are close and there are, unfortunately, none with docks that are suitable for the Lockmaster. Planning a day before or after your rental is probably the best way to see the wineries. If you want to visit a winery while you are on your canalboat, there are a few that are a doable bike ride for some people. Remember the landscape is hilly and it's a few miles from the docking area, so this might not be for you. There is a car rental place in Seneca Falls, which is another option:
