

The Lockmaster - Inventory, Boat Amenities & Orientation Overview

The following information will further acquaint you with the provisioning of your boat, the standard onboard amenities of our fleet, and what to expect during training and orientation.

Kitchen/Galley:

All kitchen cookware & dishware items on the inventory listing. High-touch items will be removed from the boat after each charter and replaced with a set that has been cleaned and inventoried by our staff. This includes all dishes, glassware, and utensils. The provisioned items for your cruise will be provided in Totes on your boat.

Linen:

We provide a commercially cleaned set of sheets, blankets, bedspread & pillows for each bed, as well as bath towels, hand towels, and washcloths for the shower plus kitchen linens like dishtowels.

Arrival | Orientation | Training:

We request that you arrive at our Marina no later than 12:30 pm. Group orientation starts at approximately 12:30 pm, for all boats departing that day. If you are going to be later than 12:30 pm please contact our office so we can adjust training to not impact other guests.

All groups will watch our video orientation training in our community room. The video orientations focus on many aspects of the boat's interior, its systems, and some basic navigation topics.

You will then have an opportunity to board your boat, unpack & get settled in. We ask that you are efficient in settling in because all boats departing will need to enter the Lock training at Lock 30 at the same time.

One of our trainers will meet you and take you out on the water to teach you how to operate your boat. The personal training will go over all aspects of boat safety, navigation, and amenities of the boat. Our on-the-water training will get you proficient with piloting the boat, stopping it, safety in docking, and proper procedures when traversing a lock. Once completed, you will drop off your trainer and be off on your vacation! You can anticipate arriving at your first night's port between 6:30 PM and 7 PM.

Please contact us if you have any questions or concerns at 315-986-3011. We wish you a safe & memorable adventure on the Erie Canal!

The Lockmaster Canal Boat

The following boating amenities and equipment are included on the boat for ease of handling and travel along the Erie Canal, and vacation amenity comfort.

Boat Amenity	Overview/Summary
Galley (Kitchen) Appliances	All boats are equipped with: <ul style="list-style-type: none">• Gas range stove with safety system and oven• Small electric refrigerator with ice freezer• Microwave• Toaster• Sink (hot & cold running tap water)• Kitchen storage cabinets, cookware, cooking utensils, & dinnerware• Keurig-style (k-cup pod) coffee maker and a stove-top percolator
HVAC	All boats are equipped with: <ul style="list-style-type: none">• Air Conditioner (only usable when shore power is connected)• Forced Air Heating• Hot Water System
Bathroom	All boats are equipped with 1 shower, vanity(s) with sink and storage, and bathroom toilet(s). Hot/cold water to vanities, shower & sink. You will need to refresh the tap water during your cruise. (You'll learn how to do this in training.) There should be no need for a pump out of wastewater during your trip.
Engine & Fuel	All boats have diesel engines with single-lever control for easy navigation. Each trip is supplied with an ample supply of fuel for your entire rental.
Bow Thruster	All boats feature Bow Thrusters to ensure safe & graceful locking and docking. Flip the button on, and the boat will move in the direction pointed. We call this stress-free docking!
Electricity	All boats include 12v for refrigeration, lighting, bilge pump & water pump. Also 110v inverter supplies outlets for laptops, cell phone chargers, and cabin fans.
Shore Power	The boats have shore power hookup capability. This allows you to charge batteries while docked. During shore power hookup - you can operate AC units, microwaves, hair dryers, or other small appliances with high power draw.
